

Immutable String :-

L) String

```

=> String varName = "Data";
=> String varName = new String("Data");
=> char ch[] = {'d', 'a', 't', 'a'};
    String varName = new String(ch);
    
```

String \Rightarrow Object \Rightarrow Heap

$== \rightarrow$ references

$s_1 == s_2 \Rightarrow \text{true}$

$(s_3 == s_4) \Rightarrow \text{false}$
