  {
    String obj = "WELCOME TO JAVA";
    System.out.println(obj.length());
  }
```

}

   ○   10

   ◉   **15**

   ○   12

   ○   18

6. What will be the output of the following program?

    class string_demo

      {

         public static void main(String args[])

         {

            String obj = "I" + "like" + "Java";

            System.out.println(obj);

         }

      }

   ○   I

   ○   like

   ○   Java

   ◉   **IlikeJava**

7. What will be the output of the following Java program?

      class Demo

      {

         public static void main(String args[])

         {

            String obj = "hello";

            String obj1 = "world";

            String obj2 = "hello";

            System.out.println(obj.equals(obj1) + " " + obj.equals(obj2));

         }

      }

   ○   false false

   ○   true true

   ○   true false

   ◉   **false true**

Explanation:

8. What will s2 contain after the following lines of Java code?

      String s1 = "one";

      String s2 = s1.concat("two")

   ○   one

○ two

● **onetwo**

○ twoone

Explanation:

Submit

○ two

● **onetwo**

○ twoone

Explanation:
